

ABC COMMUNICATIONS LTD

Telco Customer Churn Analysis

Business Background

ABC Communications Ltd wants to better understand customer churn and identify customer characteristics and service patterns associated with customer retention and churn.

Business Problem

The company is experiencing customer churn and needs to understand which customer segments and service characteristics are associated with higher churn so that management can make informed retention decisions.

Business Objective

To analyze customer data to identify patterns associated with churn and provide actionable insights that can support customer retention strategies.

Business Questions

1. What does the customer base look like?
2. Which segments have the highest churn?
3. Does contract type influence retention?
4. Does tenure affect loyalty?
5. Which services influence churn?
6. Which payment methods have higher churn?

Key Metrics

- Total Customers
- Churned Customers
- Churn Rate
- Customer Tenure
- Monthly Charges
- Service Count
- Contract Type

Expected Business Value

The analysis is intended to help management identify higher-risk customer segments, understand customer behavior and prioritize retention initiatives.
